The contribution of small growers in the context of overall tea production has been growing to touch almost 50 per cent as per 2017 estimates, according to the Indian Tea Association (ITA). The Tea Board feels the trend does not augur well and could cause "disruption" in the market. In 2017, total production during January-December period was 1,348.44 million kilograms, while the estimated contribution of the small growers was 631.69 million kg.

A meeting of the minimum wages advisory board for tea workers in Assam was held, which decided to fix minimum wages of tea garden workers at Rs.351. The amount includes both cash and kind component. Such increase is abnormally high and may result in many estates closing down.

29. MANAGEMENT DISCUSSION AND ANALYSIS

a) Industry Structure & Developments

North India auctions sell 98.6 mkgs - Jan/March against 60.7 mkgs in 2016.

North India April harvest (Banji teas) a record at 63.4 mkgs.

South India adds 19.5 mkgs to April/May crop compared to 2016.

Above affects first flush and Banji levels for common teas. Plainier categories witness maximum outlots and price fluctuations.

Good and best varieties back in favour. Welcome increase in prices which return to 2015 levels for Brokens and Fannings.

Dust grades see greater price jump in comparison to leaf. Often outsell comparable brokens particularly better medium and good varieties. Levels however lower than 2015 for best Dusts.

Huge offerings in first quarter of 2017. Higher production and lower markets in South India and large harvest from Dooars/Terai have negative impact on prices of BLF and Plain teas.

Demonetization in 2016 coupled with GST roll out in 2017 stymies business for smaller traders. States with cash-based economies like Bihar, UP, MP suffer more.

Has adverse effect on demand and prices of plainier/ordinary varieties and leads to scheme based sales.

Smaller traders relinquish space to larger packeteers who better equipped to handle issues associated with Demonetization/GST.

Export volumes a near record at 240.8 mkgs Jan/Dec (+18.2 mkgs) on the back of higher shipments from North India.

Exports from South India fairly similar at 92.3 mkgs (+3.4 mkgs).

Anticipated lower crop and reduced auction carry forward augurs well for a strong start.

b) Opportunities, Threats, Risks & Concerns

Because of the very small size of production the Company's teas are readily accepted in niche market for "NORBEN" created over the years.

All the plantations of Norben are of high yielding clones producing bright liquoring teas.

The age of the plantations is very young and provides a great advantage in terms of cost due to less disease and low maintenance cost due to vigorous health of the bush.

The Company has in place systems of Internal Control commensurate with the size of the Company and the nature of its business, which ensures that transactions are recorded, authorized and reported correctly apart from safeguarding its assets against loss from wastage, unauthorized use and removal.

The Internal Control System is supplemented by documented policies, guidelines and procedures. An extensive programme of review is carried out by the Company's Management cum Internal Audit team which submits detailed reports periodically to the Management.

Tea continues to enjoy the status of being the most popular beverage in the World.

The Tea Industry is largely dependent on the vagaries of nature. The Industry is highly labour intensive and is subject to stringent labour laws. Comparatively high labour costs, high social cost over most other tea producing countries, high infrastructure costs remain the major problems for the Indian Tea Industry. Shortage of labour during peak season is also a cause for concern.

These problems need to be addressed by improved productivity. The Tea Industry both in Assam and in West Bengal have discussed with the Trade Unions and implemented productivity linked wages for the tea workers with a view to regain the Industry's competitiveness in the global market.

The small tea growers and bought leaf factories form a considerable part of the Industry in North India. There is a need to regulate these factories to maintain the quality.

c) Segment wise or product wise performance

The Company is a Single Business Segment Company

d) Outlook

Inventory with long packetier appears to be lower than previous season. November/December packing SKU's already on shelves. Current quarter sales reportedly excellent. Should lead to higher buying in first flush.

Smaller traders hard hit with introduction of GST. Business suffers.

As GST related issues settle, demand likely to be more consistent. Inventory buildup also expected.

e) Risks and concerns

Tea Board scheduled to implement Pan India post auction module before new season. Any glitch as witnessed in 2016 could adversely impact markets.

MRL in teas a matter of deep concern. Domestic and export buyers contemplate action against defaulting marks as government agencies and NGOs target compliance and customer safety.

f) Internal control system and their adequacy

The Company implemented internal control systems to ensure that all assets are safeguarded and protected against loss and that transactions are recorded and reported correctly. The internal control system is commensurate with the size and nature of the Company's business. The systems are regularly reviewed for effectiveness.

g) Discussion on financial performance with respect to operational performance

This has been covered in the Director's report specifically under the section on financial results and performance. The financial review for the year has also been separately covered in this Annual Report.

h) Material developments in human resources/industrial relations front, including number of people employed

The Company emphasizes training and development for optimum results. The Company strives to maintain healthy industrial relations across its various locations and employees. The number of persons employed by the Company as on March 31, 2018 was 99.

i) Cautionary Statement

Statements in the Management Discussions and Analysis Report in regard to projections, estimates and expectations have been made in good faith. Many unforeseen factors may come into play and affect the actual results which could be different from what the Directors envisage in terms of future performance and outlook. Market data and product information contained in this Report have been based on information gathered from various published and unpublished reports, and their accuracy, reliability and completeness cannot be assured.

THE CRITERIA FOR PERFORMANCE EVALUATION OF THE DIRECTORS OF THE COMPANY

The Board will assess its performance each year. The purpose of the assessment is to increase the effectiveness of the Board. The various Committees of the Board shall annually conduct a self-assessment of their performance and respective Terms of Reference.

Formal annual evaluation by the Board of its own performance and that of its Committees and Individual Directors shall also be done as outlined below:

The Company will follow a seven step system of the following processes for evaluation:

METHODOLOGY

What the Company hopes to achieve?

Clearly identified objectives will enable the Company to set specific goals for the evaluation and make decisions about the scope of the review. Such issues as the complexity of the performance problem, the size of the board, the stage of organisational life cycle and significant developments in the firm's competitive environment will determine the issues the Company wishes to evaluate.

Who will be evaluated?

With the objectives for the evaluation set, the Company needs to decide whose performance will be reviewed to meet them.

The Company needs to consider three groups: the Board as whole (including board committees), individual directors (including the roles of chairperson and/or lead independent director), and key governance personnel (generally the CFO and company secretary).

What will be evaluated?

Having established the objectives of the evaluation and the people/groups that will be evaluated to achieve those objectives, the next stage involves the evaluation becoming specific. It is now necessary to elaborate these objectives into a number of specific topics to ensure that the evaluation (1) clarifies any potential problems, (2) identifies the root cause(s) of these problems, and (3) tests the practicality of specific governance solutions, wherever possible. This is necessary whether the board is seeking general or specific performance improvements and will suit boards seeking to improve areas as diverse as board processes, director skills, competencies and motivation, or even boardroom relationships.

Who will be asked?

Internally, Board members, the CEO, senior managers and, in some cases, other management personnel and employees may have the necessary information to provide feedback on elements of a company's governance system.

Externally, owners/members and even financial markets can provide valuable data for the review. Similarly, in some situations, government departments, major customers and suppliers may have close links with the board and be in a position to provide useful information on its performance.

What techniques will be used?

Depending on the degree of formality, the objectives of the evaluation, and the resources available, boards may choose between a range of qualitative and quantitative techniques.

Who will do the evaluation?

The next consideration in establishing evaluation framework is to decide who the most appropriate person is to conduct the evaluation. If the review is an internal one, the chairperson commonly conducts the evaluation. However, there are times when it may be more appropriate to delegate either to a non-executive or lead director, or to a board committee. In the case of external evaluations, specialist consultants or other general advisers with expertise in the areas of corporate governance and performance evaluation may lead the process.

What do you do with the results?

Since the Board as a whole is responsible for its performance, the results of the review will be released to the board in all but the most unusual of circumstances. Where the evaluation objectives are focused entirely on the board, board members will simply discuss the results among themselves.

“ANNEXURE - B” TO THE INDEPENDENT AUDITORS’ REPORT OF EVEN DATE ON THE IND AS FINANCIAL STATEMENTS OF M/S NORBEN TEA & EXPORTS LTD.

Report on the Internal Financial Control under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”) - Referred to in paragraph 5.2(f) of our report of even date to the Standalone Ind AS financial statements of the Company for the year ended March 31, 2018 :

We have audited the internal financial controls over financial reporting of M/s Norben Tea & Exports Limited (“the Company”), as of **March 31, 2018**, in conjunction with our audit of the **Ind AS** financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial control based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the guidance note on Audit of Internal Financial Control Over financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities includes the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES ON FINANCIAL STATEMENT FOR THE YEAR ENDED ON 31ST MARCH, 2018

Note No. 1

BACKGROUND

Norben Tea & Exports Limited is a company limited by shares, incorporated and domiciled in India. The Company is engaged in the business of growing and manufacturing of Tea and providing IT consulting services.

Note No. 2

Basis of Accounting

2.1 Transition to Ind AS

Basis for Preparation

For all period up to and including the year ended March 31, 2017, the Company has prepared its financial statements in accordance with generally accepted accounting principles in India (Indian GAAP). These financial statements for the year ended March 31, 2018 are the Company's first annual IND AS financial statements and have been prepared in accordance with IND AS.

The accounting policies set out in note 1 have been applied in preparing the financial statements for the year ended 31 March 2018, the comparative information presented in these financial statements for the year ended 31 March 2017 and in the preparation of an opening Ind AS balance sheet at 1 April 2016 (the date of transition). This note explains the principal adjustments made by the Company in restating its financial statements prepared in accordance with previous GAAP, and how the transition from previous GAAP to Ind AS has affected the Company's financial position, financial performance and cash flows.

2.2 Exceptions and Exemptions Applied

IND AS 101 "First-time adoption of Indian Accounting Standards" (hereinafter referred to as Ind AS 101) allows first time adopters certain exemptions from the retrospective application of certain IND AS, effective for April 1, 2016 opening balance sheet. In preparing these consolidated financial statements, the Company has applied the below mentioned optional exemptions and mandatory exceptions.

Note No. 3

Significant Accounting Policies

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated. The financial statements are for M/s Norben Tea & Exports Limited (the 'Company').

3.1 Fair valuation of Investments

Under the previous GAAP, investments in equity instruments and mutual funds were classified as long-term investments or current investments based on the intended holding period and realisability. Long-term investments were carried at cost less provision for other than temporary decline in the value of such investments. Current investments were carried at lower of cost and fair value. Under Ind AS, these investments are required to be measured at fair value. The resulting fair value changes of these investments (other than equity instruments designated as at FVOCI) have been recognised in retained earnings as at the date of transition and subsequently in the profit or loss for the year ended 31 March 2017.

Fair value changes with respect to investments in equity instruments designated as at FVOCI have been recognised in FVOCI – Equity investments reserve as at the date of transition and subsequently in the other comprehensive income for the year ended 31 March 2017.

3.2 Borrowings

Ind AS 109 requires transaction costs incurred towards origination of borrowings to be deducted from the carrying amount of borrowings on initial recognition. These costs are recognised in the profit or loss over the tenure of the borrowing as part of the interest expense by applying the effective interest rate method. Under previous GAAP, these transaction costs were charged off to Statement of Profit & Loss or capitalized with the qualifying asset as per the application of the corresponding Borrowings.

3.3 Remeasurements of post-employment benefit obligations

Under Ind AS, remeasurements i.e. actuarial gains and losses and the return on plan assets, excluding amounts included in the net interest expense on the net defined benefit liability are recognised in other comprehensive income instead of profit or loss. Under the previous GAAP, these remeasurements were forming part of the profit or loss for the year.

3.4 Retained Earnings

Retained earnings as at April 1, 2016 has been adjusted consequent to the above Ind AS transition adjustments.

3.5 Other Comprehensive Income

Under Ind AS, all items of income and expense recognised in a period should be included in profit or loss for the period, unless a standard requires or permits otherwise. Items of income and expense that are not recognised in profit or loss but are shown in the statement of profit and loss as 'other comprehensive income' includes remeasurements of defined benefit plans and fair value gains or (losses) on FVOCI equity instruments and debt instruments. The concept of other comprehensive income did not exist under previous GAAP.

3.6 Deferred Tax

Indian GAAP requires deferred tax accounting using the income statement approach, which focuses on differences between taxable profits and accounting profits for the period. Ind AS 12 requires entities to account for deferred taxes using the balance sheet approach, which focuses on temporary differences between the carrying amount of an asset or liability in the balance sheet and its tax base. The application of Ind AS 12 approach has resulted in recognition of deferred tax on new temporary differences which was not required under Indian GAAP.

In addition, the various transitional adjustments lead to different temporary differences. According to the accounting policies, the company has to account for such differences. Deferred tax adjustments are recognized in correlation to the underlying transaction either in retained earnings or a separate component of equity.

3.7 Re-classifications

The Company has done the following reclassifications as per the requirements of Ind-AS :

Assets / liabilities which do not meet the definition of financial asset / financial liability have been reclassified to other asset / liability.

Remeasurement gain/loss on long term employee defined benefit plans are re-classified from statement of profit and loss to OCI.

The Company has re-classified unpaid dividend balance form cash and cash equivalents to other bank balances.

Excise duty on sales was earlier netted off with Sales, has now been presented separately.

3.8 Property Plant and Equipment, Intangible Assets and Investment Properties

As permitted by para D5-D8B of Ind AS 101, the Company has elected to continue with the carrying values under previous GAAP for all the items of property, plant and equipment. The same election has been made in respect of intangible assets also.

Fixed Assets

- i) Tangible Fixed Assets are stated at their original cost less depreciation. Cost includes incidental expenses. Profits or losses on sale of tangible fixed assets are included in the statement of profit and loss and calculated as difference between the value realized and book value. Capital work-in-progress is stated at cost. Subsidies received in respect of tangible fixed assets are deducted from the cost of respective assets.
- ii) Cost of Plantations being Bearer Plants are valued on historical cost basis based on the cost incurred for new extension beginning from uprooting, planting, rejuvenation and maintenance etc. till the time it started bearing fruits/Green Tea leaves.

- iii) Capital work-in-progress is stated at the amount expended up to the stage of completion of the project.

Depreciation

Depreciation on tangible assets is provided on Straight Line Method on all assets except land. Depreciation on tangible assets is provided over the useful lives of assets estimated by the management. Depreciation for assets purchased / sold during the period is proportionately charged. Intangible assets are amortised over their respective individual estimated useful lives on a Straight Line basis commencing from the date assets are available to the Company for use. The management estimates the useful lives for the fixed assets are as follows :

Sr.No.	Name of the Assets	Useful Life (years)
1	Factory Building* & Non-Factory Building	60
2	Plant & Machinery*, Roads & Bridges, Water Installation*, Irrigation Equipments and Electric Installation	30
3	Furniture & Fittings* and Ring & Tubewell*	20
4	Motor Vehicles*	15
5	Computer*	6
6	Office Equipments	5
7	Bearer Plants*	70

* For these class of assets, based on internal assessment and independent technical evaluation carried out by external valuers the management believes that the useful lives as given above best represent the period over which management expects to use these assets.

Hence the useful lives for the assets is different from the useful lives as prescribed under Part C of Schedule 11 of the Companies Act, 2013. Freehold and Leasehold land are not depreciated.

3.9 Cash and cash equivalents

Cash and cash equivalents includes Cash on Hand, Cash at Bank, Cheque in Hand and other short-term highly liquid investments with an original maturity of three months or less.

3.10 Provisions

A provision is recognized when the company has a present obligation as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

Where the company expects some or all of a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the statement of profit and loss net of any reimbursement.

3.11 Earnings Per Share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting preference dividends and attributable taxes) by the weighted average number of equity shares outstanding during the period. Partly paid equity shares are treated as a fraction of an equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

3.12 Contingent liabilities

Provision of contingent liabilities are not made, unless & until the demand raised by statutory authorities, against which the company has preferred an appeal which is pending with the different forum of the said authorities are ascertained.

3.13 Recognition of Revenue

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are inclusive of excise duty and net of returns, trade allowances, rebates, value added taxes, goods and service tax (GST) and amounts collected on behalf of third parties.

The Company recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of the Company's activities as described below. The Company bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement.

Sale of goods

Sales represents invoiced value of goods sold including excise duty but excluding sales tax.

Income from Investment

Income from Investment other than investment in shares of companies is included, together with related tax deducted at source in the Statement of Profit & Loss on an accrual basis. Income from investment in shares of companies is recognized on actual realisation.

Interest Income

Interest income is recognized on accrual basis.

Raw materials – At weighted average cost.

Stock of Tea – at cost or net realisable value whichever is lower.

Stock of stores & spare parts – At cost (net of modvat credit) or net realizable value whichever is lower.

Other Stocks – At cost or net realisable value whichever is lower.

Note No. 4

Significant Judgements & Estimates

Estimates

As per para 14 of Ind AS 101, an entity's estimates in accordance with Ind AS at the date of transition to Ind AS at the end of the comparative period presented in the entity's first Ind AS financial statements, as the case may be, should be consistent with estimates made for the same date in accordance with the previous GAAP unless there is objective evidence that those estimates were in error. However, the estimates should be adjusted to reflect any differences in accounting policies.

As per para 16 of the standard, where application of Ind AS requires an entity to make certain estimates that were not required under previous GAAP, those estimates should be made to reflect conditions that existed at the date of transition or at the end of the comparative period.

The Company's estimates under Ind AS are consistent with the above requirement. Key estimates considered in preparation of the financial statement that were not required under the previous GAAP are listed below:

-Fair Valuation of financial instruments carried at FVTPL and/ or FVOCI.

-Fair Valuation of Biological Assets measured at fair value less cost to sell.

-Impairment of financial assets based on the expected credit loss model.

-Determination of the discounted value for financial instruments carried at amortized cost.

-Discounted value of liability for decommissioning costs.
